CASE STUDY · LEGACY & PLANNED GIVING

500 loyal donors, 50 confirmed planned gifts, $4.89 million.

A private Northeast university had a deep bench of loyal donors and no way to reach them one at a time. A Legacy Call program found the bequests hiding inside that loyalty.

KEY RESULTS

500
LOYAL DONORS CONTACTED

116
EXPRESSED PLANNED-GIVING INTEREST

50
CONFIRMED PLANNED GIFTS

$4,894,000
TOTAL CONFIRMED GIFT VALUE

> *"Catapult's Gift Planning Specialists are planned giving professionals, each with over 20 years of experience working directly in planned giving, in roles such as Director and Vice President of Planned Giving at major institutions."*
>
> The Legacy Call two-tier model

The Situation

Catapult partnered with a private university in the Northeast to run a planned giving telephone outreach program to 500 of the university's most loyal donors. With that many loyal supporters, the university needed help identifying gift planning interest, cultivating those prospects, and educating donors on their planned gift options.

The Solution

Tier 1 callers thanked each prospect for years of loyal support and gauged interest in a planned gift. Depending on that interest, a Gift Planning Specialist made a second call, informed the prospect of gift options, and confirmed and quantified the gift over the phone. Program goals: thank loyal donors, determine estate-plan interest, confirm and recognize gifts already made, and educate donors on their options.

The Result

- 116 of 500 donors expressed current interest or had already completed a planned gift
- 82 more expressed interest in a future legacy gift for the university to follow up on
- 50 planned gifts confirmed in writing or verbally, totaling $4,894,000
- Total potential gifts identified: $328,500
- Total confirmed plus potential: $5,222,500

$5.22M
CONFIRMED PLUS POTENTIAL

23%
OF THOSE CALLED SHOWED INTEREST

WHY IT WORKED

- Loyalty, not wealth score, selected the call list
- Specialists closed gifts, callers opened doors
- Gifts already in wills surfaced so they could be recognized
