CALL STEPS PER DONOR

> *"Legacy Call was a game-changer for us. We are a small shop and needed help connecting with planned giving donors. We reached a wider audience and the response was incredible. Not only did we secure several new planned gifts, we also identified a pool of prospective donors."*

> Chief Philanthropy Officer, PBS KVIE

The Challenge

As a small shop, creating a pipeline of planned giving donors can be a daunting task. PBS KVIE partnered with Catapult to identify and cultivate new planned giving donors, strengthen relationships with existing donors, and secure planned gifts.

Catapult's Solution

Catapult created a customized, highly personalized planned giving outreach program that helped cast a wider net in an effective way. The process ran in three steps: database review and loyal donor prospect selection, a thank-you and planned giving identification call, then an educational call and gift commitment discussion with our planned giving consultants.

The Impact

- Steward current donors: loyal donors received the time, attention, and gratitude they deserved
- Secure planned gifts: consultants uncovered and closed commitments previously unknown
- Build a pipeline: donors interested but not yet ready were identified for further nurturing
