CASE STUDY · LEGACY & PLANNED GIVING

The Ronald Reagan Presidential Library: $2.825 million confirmed.

A 2,000-donor Legacy Call program tested the loyalty of the Library's donor base and found planned giving interest at twice the expected rate.

KEY RESULTS

2,000
LOYAL DONORS CONTACTED

22%
EXPRESSED CURRENT INTEREST

26
CONFIRMED PLANNED GIFTS

$2,825,000
TOTAL CONFIRMED GIFT VALUE

> *"The projected result for a telephone outreach program is that 10 to 15 percent of those reached will have planned giving interest. At the Library it was 22 percent, a direct measure of how strongly this donor base is attached to the institution."*

The Situation

Catapult partnered with the Ronald Reagan Presidential Library to run a planned giving telephone outreach program to 2,000 of its most loyal donors, identifying gift planning interest, cultivating those prospects, and educating donors on their options.

The Solution

Tier 1 callers thanked donors for their loyal support and gauged planned giving interest. Tier 2 planned giving specialists, each with more than 20 years of experience in roles such as Director and Vice President of Planned Giving, followed up to present gift options and confirm and quantify gifts over the phone.

The Result

- 22% expressed current interest or had already completed a planned gift
- An additional 17% expressed future planned giving interest for the Library to cultivate
- 26 planned gifts confirmed in writing or verbally, totaling $2,825,000
- Total potential gifts identified: $1,510,000
- Total confirmed plus potential: $4,335,000

$4.34M

10-15%
TYPICAL INTEREST RATE, VS 22% HERE

WHY IT WORKED

Bequests already written were finally on the record

Undecided donors left educated, not pressured

The Library gained a major gift pipeline, not just gifts
