CASE STUDY · CAPITAL CAMPAIGN

Love Builds a New Home: past a $25 million goal.

Ronald McDonald House Charities South Texas partnered with Catapult to add major gift capacity, strengthen campaign accountability, and organize a disciplined prospect strategy.

ROOMS IN THE NEW HOUSE

80%
INCREASE IN BEDROOM CAPACITY

> *"The Catapult team brought unparalleled energy, insight, and strategy to our campaign. Their hands-on guidance helped us connect deeply with our supporters and coached our Capital Campaign committee members to make the ask."*
>
> Michelle Horine, Chief Executive Officer, Ronald McDonald House Charities South Texas

The Opportunity

Growing demand had outpaced the existing 25-room House in Corpus Christi. Love Builds a New Home was created to replace and expand the facility so more families can stay close to their children during specialized medical care.

The Partnership

When Catapult joined, just over $5 million had been committed. A study was already done, so the need was added major gift capacity, accountability, and an organized plan. Catapult worked as an extension of the team: prospects organized around a clear gift strategy, priorities and next steps for committee members, and hands-on coaching before meetings and solicitations.

How Catapult Helped

- Added major gift capacity when prospect management and follow-through were critical
- Campaign committee members had clearer priorities, assignments, and preparation
- Priority prospects were approached intentionally, with research and coaching at each stage
- Strategy adapted as donor support and the project opportunity grew
