CASE STUDY · LEGACY & PLANNED GIVING

A New Jersey hospital: $1,023,000 confirmed in three months.

A private hospital in southern New Jersey put 1,000 of its most loyal donors into a Legacy Call program and found planned giving interest at double the projected rate.

KEY RESULTS

1,000
LOYAL DONORS SOLICITED

770

The Situation

Catapult partnered with a private hospital in southern New Jersey to run a planned giving telephone outreach program to 1,000 of its most loyal donors, to identify planned giving interest, cultivate those prospects, and educate donors on their options.

The Solution

Donors were mailed a personalized thank-you letter, then called by Tier 1 callers who thanked them for years of support and gauged interest. Where interest existed, a Tier 2 planned giving specialist with more than 20 years of experience called to present gift options and confirm and quantify the gift. The entire program took three months.

The Result

- 770 of 1,000 donors were reached by Tier 1 callers
- 30% of those reached expressed current interest or had already completed a planned gift
- 68 more expressed interest in a planned gift within five years
- 18 planned gifts confirmed, totaling $1,023,000
- Total confirmed plus potential: $1,435,500

3 MONTHS
START TO FINISH

30%
INTEREST AMONG THOSE REACHED

WHY IT WORKED

Mail plus phone, in that order

Interest was measured, not assumed

Future-interest prospects went back to the hospital
