CASE STUDY · MID-LEVEL DONOR ENGAGEMENT

A faith-based organization turned mid-level loyalty into a major gift pipeline.

Three segments, one recognition society, and a personal thank-you before any ask. 57% of the donors contacted qualified for deeper stewardship.

KEY RESULTS

32%
HIGHER RESPONSE RATE, REACTIVATE SEGMENT

57%
QUALIFIED FOR ADDITIONAL STEWARDSHIP

9%
QUALIFIED FOR A MAJOR GIFT APPOINTMENT

3
DONOR SEGMENTS ACTIVATED

> *"Like many faith-based organizations, it had a deep bench of long-tenured donors whose true capacity and readiness had never been formally assessed."*
>
> The challenge, in one line

Audience Segments

Catapult built three segments from the donor file, each with its own strategy and ask. Reactivate: donors whose most recent gift was $500, given 23 or more months ago. Renewal: donors whose most recent gift was $1,000, given within the last twelve months. Upgrade: current donors giving under $2,500 who showed higher capacity.

The Strategy

Selected donors were invited into a recognition society through a personalized, multi-touch sequence: an email or letter matched to each donor's stated communication preference, a follow-up phone call thanking them for their loyalty, and a personal invitation to join, sustain, or upgrade their support.

The Results

- Reactivate donors responded at 32% above the organization's historical benchmark
- Renewal donors produced a higher average gift than prior renewal efforts
- Upgrade donors produced both a higher response rate and a higher average gift
- 57% of contacted donors qualified for additional stewardship
- 9% of contacted donors qualified for a major gift appointment

1 IN 11
CONTACTED DONORS READY FOR A MAJOR GIFT VISIT

3 TOUCHES
MAIL OR EMAIL, CALL, INVITATION

WHY IT WORKED

- Segments were built on behavior, not guesswork
- The thank-you came before the ask
- Every call produced a qualification decision
